

**Date:** 29-Sep-2021

**To:** Head of Supreme Court of Poland, Her Excellency Małgorzata Manowska.

I would like to pay my deepest respects to you and hope you are doing well.

I should thank you, from the bottom of my heart, for your act of humanity in which you saved the lives of me and tens of my country mates as women judges in such a critical situation, and for giving us the opportunity to start a new life here.

You saved my life and that of my spouse, mother and children; you provided for our safety and protection. I realize it deep in my heart. I am indeed indebted to you because of your support and act of humanity towards us, and hope to return this kindness by being able to serve other people in any part of this planet.

Before, I did not know much about Poland, but now I feel home, deep in my heart. In my first meeting with the European Union, I am very delighted to be in Poland which I consider a country of peace, equality and humanitarianism.

I wished I could speak Polish to express my feelings to your Excellency in a better way. Since the day I came to Poland, I came to realize that the world is a beautiful place to live. During the short period I have stayed here, I have not seen anything from the Polish government and people but kindness, love and affection.

I am working on a Power Point presentation to show how I became displaced and went on hiding for three weeks until the Polish troops in Afghanistan saved my life courageously and provided me the necessary protection amid a tremendously fearful situation caused by the Taliban, to make my way to the country of peace which is Poland!

I need a little bit more time to complete my project which is a video documentary. I hope to be given the time and opportunity to portray and narrate the affection and kindness bestowed to us by the Polish government and people, to the whole world.

Also, during my stay as a guest in [REDACTED] Hotel, I have every night watched a Polish TV program showing Mr. Prime Minister, Mateusz Morawiecki and one of his friends. I am a fond of that program which has helped me get to know much about Poland and its nice people.

Yours Truly,
